

Ministry Needs:

1. Mission Van

The organization is facing a transport challenge. We pay a very high price to rent a van to transport our mission team to communities of our outreach, since we must keep the van for almost four days till we come back. We would appreciate any contribution towards buying our own Mission van i.e. a Toyota HiAce (it carries around 12 passengers including their luggage). By this, we may solve the challenge of airport transfers for volunteers that travel to work alongside our team in Uganda.

2. Namisambya Youth Center Construction Project

In order to fully realize the project's goals, and reduce on the high costs spent on renting homes for the supported children, lack of a social and rehabilitation center for our psychological, empowerment & development activities, YOFOCHM is designing, and will seek funding for, the Namisambya Youth Center Construction Project that will see construction of 8 class rooms, a kitchen, a youth / church hall, latrines, 1-administration room and a dormitory block for the needy and orphaned youth. The center shall also be a home for orphans and the headquarters for Youth for Charity Missions International (Yofochm) and will be fully equipped with teaching materials, sports/game room, counseling materials, and others.

The purpose of the youth center project also, will be to provide the children and Community a Center to enable essential services for children, girls, and all young people. The Center also will accommodate a church and be available for general community use. It is envisaged that the facilities will be an inviting and vibrant community space where the community, particularly young people, can meet, connect, interact, receive training and counseling and enjoy a range of spiritual, social and recreational activities. The services at the center are to be given to the children free of charge. Any support for this cause is welcome!

Volunteers

YOFOCHM welcomes all people including church leaders and missionaries to volunteer with us in Uganda in various areas of their calling. Students from across the world including Uganda can also apply to come and work with YOFOCHM in various projects for their internship as they choose.

Total cost: \$1,000 (a week). This cost includes food, water, housing, team t-shirt, local transportation including airport transfers, a contribution to outreach costs, admin fee and tour. Cost excludes: International flight, domestic flight, vaccinations and personal travel insurance.

Please contact us for more info on applying & making payments.

SAVE A GIRL INITIATIVE (SAGI)

Vision

“: To raise an independent, self-sustaining, female generation, that will fully participate in the social, economic, and spiritual development of their communities.”

Motto

Save a girl, save a future.

Mission :

To create opportunities that will empower women and secure for them a productive place in a developing society.
